### EASY ACCESS.

Quick Release buckles hold the protective faceplate open for easy access to the GB500's interface.

### REINFORCED POCKETS.

The reinforced semi-rigid pockets securely hold clamps, extensions or other accessories.

### PORTABLE DESIGN.

Store the protective case easily in your trunk, vehicle, console, or garage. The GBC0167 offers protection from moisture, impact, dust, and environmental factors.

\*Boost & Accessories Not Included

### PADDED EVA.

Padded with liquid-filled EVA, the durable and lightweight structured base and interior have a water resistant, canvas-like finish.

### REINFORCED ZIPPER.

The case is sealed with a heavy-duty reverse coil zipper, a built-in reinforced handle, and custom over-molded pull tabs.
